----

Summary

Junior Full Stack Developer with over 2 years of hands-on experience in building scalable, secure, and responsive web applications using ASP.NET Core 8, Entity Framework Core, and SQL Server. Trained in MERN stack (MongoDB, Express.js, React, Node.js) via ITI and DEPI programs (expected completion in November 2025). Skilled in C#, JavaScript, RESTful APIs, and modern DevOps practices. Passionate about clean code, system design, and agile collaboration.

Experience

.NET Back-End Developer | Imcanat.sa   Jan 2024 – Present

Maintained and customized legacy enterprise systems using proprietary framework "iCore".

Refactored critical modules, improving system reliability and maintainability by 30%.

Implemented authentication/authorization systems using ASP.NET Core Identity.

.NET Back-End Developer | Freelance | Remote | Jan 2023 – Present

Developed ASP.NET Core MVC applications for various clients.

Designed robust database schemas using EF Core and SQL Server.

Delivered custom dashboards and admin panels with role-based access.
